

Survey concerning Conservation of the Water Quality of Lake Nojiri

Your cooperation would be greatly appreciated.

This questionnaire is intended for *all adults* who stay in a cabin of Nojiri Lake Association in Shinano Town, Nagano Prefecture, Japan. The questionnaire covers what is your evaluation of the quality of Lake Nojiri, and what you think of environmental issues in general and the environment of the Lake in particular. It is intended to inform consideration of future policy on the conservation of Lake Nojiri, and is being conducted jointly by Shinano Town Office, Shinshu University Institute of Mountain Sciences and Shinshu University Innovation Research and Support Centre.

The distribution and collection of the questionnaire is carried out with the cooperation of NLA Business Office. Compilation and analysis of the results will be carried out by the Shinshu University departments previously mentioned above.

This questionnaire is anonymous, and there are no particular requirements for the respondents. Answers will not be treated individually and will only be evaluated collectively. In addition, the answers will not be used for any other purpose than analyzing and reviewing the environmental policy of Shinano Town concerning the conservation of the water quality of Lake Nojiri.

August 2010

Shinano Town Office

Division of Science for Inland Water Environment, Institute of Mountain Sciences, Shinshu University

Innovation Research and Support Centre, Shinshu University
